PROFESSIONAL SUMMARY

B.Tech student specializing in Artificial Intelligence & Machine Learning at The NorthCap University with hands-on experience in developing machine learning and deep learning solutions. Built projects involving image-based plant disease detection, data analysis, and predictive modeling using Python, TensorFlow, and Scikit-learn. Passionate about applying AI to solve real-world problems and continuously exploring emerging technologies in machine learning, computer vision, and data science. Strong interest in machine learning, data analytics, and data-driven decision-making.

PROFESSIONAL EXPERIENCE

Data Analyst Intern | Cognifyz Technologies

Virtual | June 2025 – July 2025

- Worked on data analysis projects involving data cleaning, preprocessing, and exploratory data analysis (EDA) using Python and Excel. Analyzed datasets to identify trends, patterns, and key insights that supported informed decision-making. Created visualizations and reports to present findings effectively and improve data interpretation. Gained hands-on experience in data manipulation, statistical analysis, and dashboard creation while enhancing problem-solving and analytical skills through real-world business scenarios.

Web Developer | Freelancing

Remote | Nov 2023 - May 2024

- Delivered 5+ end-to-end client websites under lordstyle.in, managing full project lifecycle from requirements to deployment with 100% on-time delivery rate

PROJECTS

Image-Based Plant Disease Detection System |

Jan 2025 - March 2025

Python | TensorFlow | CNN | OpenCV | Deep Learning |

- Developed a deep learning-based system to detect and classify plant diseases from leaf images. Implemented image preprocessing, feature extraction, and CNN-based classification to automate disease identification. Evaluated model performance using accuracy, precision, recall, and F1-score metrics.

Blinkit Sales & Customer Analytics Dashboard

March 2025 - April 2025

Python | Pandas | Numpy | Excel | Data Visualization |

- Analyzed retail sales and customer datasets to identify purchasing trends and high-demand product categories. Performed data cleaning, exploratory data analysis (EDA), and visualization to generate actionable business insights. Created dashboards and reports to support data-driven decision-making.

Loan Approval Prediction System

Dec 2025 - Feb 2026

Python | Scikit-Learn | Machine Learning |

- Developed a machine learning model to predict loan approval outcomes using applicant demographic and financial data. Applied data preprocessing, feature engineering, and model evaluation techniques to improve prediction accuracy.

EDUCATION

Bachelor of Technology - AI & ML | The Northcap University

6.58 CGPA | Aug 2023 - Present

Class XII - PCM | S.D. Adarsh Vidyalaya, CBSE

70.8% | May 2023

SKILLS

AI & ML: Machine Learning | Deep Learning | Generative AI | Prompt Engineering | Data Analytics | NLP | Predictive Modeling | Statistical Analysis

Frameworks: Scikit-learn | TensorFlow | Pandas | NumPy | Matplotlib | OpenCV

Languages: Python | Java | C++

Tools: Git & GitHub | Excel | Jupyter Notebook | Figma | Firebase | Vercel

ACHIEVEMENTS & CERTIFICATIONS

Data Analysis Using Python IBM	Apr 2025
Python for Data Science IBM	Apr 2025
Python Essentials 1-2 Cisco Networking Academy	Feb 2026
Getting Started with Microsoft Excel Coursera	Jan 2026
Introduction to DevOps Coursera	May 2026
Introduction to MongoDB MongoDB	May 2025
AWS Educate Introduction to Cloud 101 Amazon Web Services (AWS)	May 2025
Aptech Computer Education (C & C++) APTECH	Apr 2023
Tata Group Cybersecurity Analyst Job Simulation Forage	Apr 2025
AWS Cloud Practitioner Essentials AWS Training & Certification	May 2025
Business Analytics with Excel Skill Nation	Jan 2026

POSITION OF RESPONSIBILITY

Social Media Head | [Sehyog Club, The Northcap University](#) Dec 2024 - Present
 Managed digital presence for 500+ member student club, creating event announcements and engagement content across social platforms.
